23rd February 2022

Dear Maple Class Parents,

Welcome to what will be a very busy and eventful Easter term in Maple class. We will be focussing on comparing human and physical geography in Brazil and England. Our Science this term is Living things and their habitats- food chains and we'll be learning about the different food chains that exist in different habitats. Our art this term is all about colour and colour mixing and this skill will be used in various art projects.

In Maths we are learning about 2D AND 3D Shape and later in the term we will learn about Fractions.. We will continue our RWI programme during English lessons and will focus on practicing the sounds we need to improve reading and writing.

Our RE unit is - "Why is Easter important to Christians?" and is sure to involve learning all about the different Easter traditions and beliefs. In computing we'll be discovering more about computers and how we can use them to perform different tasks.

The new homework grid will be handed out on the first day back. As before, please bring in all completed homework on a Friday.

We are looking forward to a really busy but very enjoyable term.

Mrs Hart, Mrs McNama, Mrs Miller and Mrs Gamble.
