

21.04.22

Dear Maple class parents.

Welcome to another really busy term in Maple class. Our History learning is going to answer the question "How has Leeds castle changed over time?". This will include a trip to Leeds castle later in the term which should be a lot of fun. In Science this term we will be focussing on seasonal changes and doing a series of lessons on working scientifically linked to our castles topic. In D.T we are completing a series of lessons to design and make a fairy tale character puppet. I'm sure this project will be very well received. Our PE units are gymnastics and Trigolf.

In Maths we are learning about position and direction and time and later in the term we will complete a problem solving unit. We will continue our RWI programme during English lessons and will focus on practicing the sounds we need to improve reading and writing.

Our RE unit is - "Judaism" and we will explore different ways in which Jewish people practice their religion.

The new homework grid will be handed out on the first day back. As before, please bring in all completed homework on a Friday. I have decided to do a spelling test on a Friday. The first spelling test will be on Friday 29th April. I will hand the spelling lists out when I hand out the homework.

We are looking forward to a really busy but very enjoyable term.

Mrs Hart, Mrs McNama and Mrs Gamble.
