

21.04.22

Dear Parents and Carers

Hope you had a pleasant Easter.

This term our history topic is Anglo Saxons. We will be reading a class book which cleverly mixes fact and fiction called "Anglo Saxon Boy". we have started it already and it is proving very useful as well as keeping us on the edge of our seats.

Science is all about animals and their habitats, including life cycles and reproduction in plants and animals.

German will go over numbers again and include fruits and breakfast vocabulary.

In P.E,we will be outside as much as the weather allows, learning a variety of skills under the topic athletics - this will be taught by Miss Foad also on a Thursday, as well as myself on a Monday.

Numeracy will cover graphs of various kinds, volume, shapes and angles as well as some revision and "Sticky Learning" moments.

Design technology will see us design and sew a book cover based on an Anglo Saxon theme.

Homework will be weekly spellings and some numeracy as well as the children continuing working from the list handed out before the Easter holiday about the Anglo Saxons. the work handed in so far has been to a super standard!

Thank you as ever for your continued support....

Mrs Phillips, Miss Spain, Mrs Gamble and Mrs Maclaurin.
