

Wednesday 27th April 2022

Dear year 6 parents,

I am writing with the next transition tip. These will become increasingly more important as the weeks before the summer holidays become fewer. This week's tip is around lunch at secondary school. It usually offers much more exciting options than primary school and children need to learn to manage a budget on a prepaid card. Please see below for the tip. The children will be discussing this in school.

Family Transition Tip 6

This week in school your child will start to think about how they will manage paying for their snacks/lunches. Most schools now use a pre-paid system. Could your child be responsible for this?

Some parents could start thinking about how they would like their child to manage this – daily/weekly/termly budget?

Is your child able to plan for healthy options? Can you look together to see if there is information about menus etc. on the school website? If your child/ren have specific dietary needs, you may want to discuss this during transition events.

If you have any queries please contact your child's class teacher

Kind regards,

Emma Hickling
