9th June 2022

Dear Maple Class parents.

In Science we will be learning about plants and, as the name implies, it will involve planting and growing our bean plants and writing a diary to describe their growth.

In English the children will be learning about quite a few Roald Dahl books and stories and comparing written and film versions. Our maths units this term are fractions shape and some revision of the 4 operations.

In Geography we will be travelling around the world and visiting a country on each continent. We will be learning more about the different cultures and their geographical features. This is sure to be a lot of fun.

In Art we will be learning about the work of artists e.g. Van Gough, to describe how he painted landscapes and to use painting techniques in the style of Van Gough to develop techniques with colour, pattern and line.

Infant agility and athletics including sports day practice are our P.E units.

As usual Term 6 is a very busy one and it's set to be a very exciting one too.

Mrs Hart, Mrs McNama and Mrs Gamble.
